DEFINITIONS

“Patriam Leadership” – Includes terms “Executive Leadership”, “Executive(s)”, “{Server} Leadership” and interchanged variations. The terms refer to the Patriam Executive Leadership of the *Patriam Studios General Partnership (PSGP)*. The individuals these terms refer to are the founders and owner of the *PSGP*. The individuals are Ryan, otherwise known as gerber11 in Minecraft and Alex, otherwise known as Atmos in Minecraft.

“Patriam” – The term “Patriam” refers to the imaginary world, creatures, and ideas; therein *intellectual property (IP)* of Alex that was conceived at the age of 9 years old. “Patriam” is now associated and held by the *Patriam Studios General Partnership (PSGP)*.

“Prospective Member” – The term “prospective member” refers to a user that has not (a) joined the official Discord and passed verification, and (b) joined the associated Minecraft server, (c) linked their Discord to their Minecraft account on the server(s), and (d) played one hour or more on the server(s).

“Member” – The term “member” or “user” refers to any person who has passed all the requirements from the term “prospective member” and

“Staff Member” – The terms “staff member”, sometimes “privileged users”, refer to members of the Patriam community which have gone through a application process that has been authorized under by the Patriam Leadership. Staff members include all levels of the staff team hierarchy. For the purposes of this document, it will **exclude** the Patriam Leadership so that there is a distinction between the two.

“Privileged User” – The terms “privileged user” or “privileged individual” refer to members of the Patriam community that have come to an agreement with the Patriam Leadership to assist in the development of a project or intellectual property (IP) which requires additional access or permission to areas associated with Patriam that non-staff would not have access to. Furthermore, privileged users are under a different agreement with server.

“Staff Association” – The term “Staff Association” or “Staff Associated” refers to the group of the two former terms: “staff member” and “privileged user”. Furthermore, this term extends the scope to include any members formerly associated, currently associated, and prospective members of *PSGP*.

GENERAL DOCUMENT OVERVIEW

This document is written by Ryan, otherwise known as gerber11 in Minecraft and released under his authority and the authority of the *PSGP* Leadership.

This section states general information and policies regarding the document itself.

DISTRIBUTION DISCLOSURE

This document is approved for release to the broader community through channels which connect to *PSGP* such as partners, affiliates, board members, and staff members.

Let it be stated that this document was created by Ryan of *PSGP* and any unauthorized works resulting from this document could result in punishment up to and including a permanent ban. This document is not to be modified by any persons or group other than the *PSGP* leadership.

This document is meant to be streamed from a server over the internet. This is to ensure it is up to date for all those who access it. Thus, this document is only authorized to be hosted on <https://patriam.cc> or any of its subdomains (https://*.patriam.cc) which is under the direct control of *PSGP* Leadership.

APPLICATION OF SCOPE

Much of this document focuses on PatriamMC, a division of *PSGP*. An additional section will be included at the end with scope extended to any area and platform in which *PSGP* interacts. In addition, the section will only include actions that are reasonable to act upon on platforms outside of *PSGP*'s direct control.

This document is considered official and binding to all members of the Patriam community and takes precedence over any information that is not on this document.

EXCEPTIONS

Exceptions to the scope can only be granted by a *PSGP* Leadership member or a member of the Executive Team of the specific division in question. Therefore, exceptions, alternative punishments and responses are valid and binding if approved by either of aforementioned teams with respect to their scope of authority.

CHAT BEHAVIOR INFRACTIONS

This section covers the most common infractions encountered within chats on platforms associated with Patriam.

DISCORD AND FORUMS

This covers all chat infractions on any *PSGP* owned Discord unless an exception is explicitly stated on this document.

EXCEPTIONS

A few **very specific** exceptions apply to **specific** rules in a specific context. Read carefully.

- **Racism and/or Sexism:** These rules may not apply in **ROLEPLAY** only if the following requirements are met.
 - o Permission has been asked of all members who the racism and/or sexism is targeted at.
 - o All members who are in the chat vicinity (voice and text) are made aware of the impending roleplay scenario in Local-Out-Of-Character (L-OOC) chat.
 - o All members in the vicinity are okay with the impending scenario.
 - o Online staff are made aware through any member-to-staff chats and/or Discord so that we're not mistaken, and no action is taken against you.

If these requirements are met, you can exercise this exception. Anything deemed excessively racism or sexism will result in the scenario being immediately stopped by staff if necessary.

- **Bullying:** You may bully specific members, group of members, nations, etc. if it is done in a **ROLEPLAYED** manner.
 - o There must be no hard feelings on either side after the roleplayed scenario is completed.
 - o Any targeted member(s) have not asked you to cease doing it in a serious manner.
 - It is possible to roleplay disgust with the bullying as part of the roleplay. So, keep an eye on the context and tone.

CLIENT MODIFICATIONS & ABUSE

This section covers client modifications and/or abuses on platforms utilized by Patriam.

MINECRAFT

The scope includes mod jars, resource packs, overlays, or any modification which is likely not intended and not done in good faith.

In other words, any modification, or abuse of any bug or glitch that provides an advantage to yourself or another that is not reasonably intended is prohibited and will result in consequences.

However, harmless quality of life modifications such as Optifine or a armour durability GUI is acceptable.

As of recent, MultiMC/PolyMC is now our recommended way of distributing and updating the modpack. It includes file hashing which prevents tampering or modification of the client in any way. Therefore, using unapproved / unlisted mods will require a request be put in to the PatriamMC Executive Team so that it can be added as an optional mod to the modpack.

You can request a quality-of-life mod be added to the modpack by making a ticket [here](#) with:

- Name of Modpack
- Available for 1.16.5?
- Link to CurseForge page
- Reason(s) to add mod
